PublicView

Black Mountain Software

Black Mountain Software has developed **PublicView** — a new open data portal for citizens to easily search, view and understand complex datasets and financial information. PublicView translates your accounting data into simple, user-friendly charts and graphs for instant budget, expenditure and revenue information at your citizens' fingertips.

Increase your budget transparency with the ability to create an unlimited number of reports.

You control:
- Which reports display and in which order
- Include or exclude specific Funds, Accounts, Orgs, or Objects
- Customize Titles and Introductory Text
- Display Budgets, Actuals, or Both

Allows the public to:
- Navigate between Bar, Pie, Summary, and History tabs
- Search by Year
- Drill down for more detail
- Export to PDF, Excel, or CSV

Build trust by allowing your community to browse budget information—anytime, anywhere.
